

Same concept. Two modelling workflows.

GPT-6.1 Sol · High reasoning · Independent agents · 30 September 2026

A / Without skill

Independent design; no project rules

7 MeshParts / 57,050 triangles

Agent time 26 min 19 s
Total tokens 3,477,168
Cached input 3,355,136
Uncached input + output 122,032

B / With modelling skill

Skill + existing project import / texture contract

2 MeshParts / 16,332 triangles

Agent time 20 min 27 s
Total tokens 2,258,289
Cached input 2,165,248
Uncached input + output 93,041

Native Roblox Studio renders · Identical camera and lighting · Polygons counted as export triangles
Time includes agent tool waits; excludes main-agent import/captures. Cached input is included in total tokens. One illustrative trial.
